

Volkswagen Auto-Sleeper Hi-Top: 1985 Motor Caravan of the Year*

*Best Conversion

Quality in design, workmanship and finish... plus a touch of magic

Instant luxury touring holidays – that's the promise of Auto-Sleepers, who for 26 years have been manufacturing motor caravans. Now the Company offers a range which provides the ultimate in terms of comfort, design, and above all, quality. As you would expect, only the very best materials are used, and depending on which model you specify, you can choose two single beds, a double bed, hot and cold water, refrigerator, flushing toilet, externally flued interior heater; even a cocktail cabinet.

As official converters for Bedford, Freight Rover, the Peugeot/Talbot Motor Company, the Ford Motor Company, Renault UK, and, of course, VAG (Volkswagen), we build in excess of the required engineering standards. You therefore have no worries concerning warranty.

The high standards to which Auto-Sleepers are designed and produced is underlined by the numerous awards the Company has

won, including four Gold Medals in International Coachwork Competitions. Auto-Sleepers also enjoy the unrivalled achievement of having won the much coveted Motor Caravan of the Year Award on four separate occasions.

At the 1985 Caravan Show, Auto-Sleepers swept the board, and not only won each of the classes, but also took the first four places in the Caravan Industry Awards.

Sold in most European countries, the Auto-Sleeper is designed for year-round use, whilst – thanks to its compact size – it is equally at home on shopping trips as it is touring in the South of France.

For full details, plus colour brochures and Auto-Sleeper Magazine, contact either your nearest Auto-Sleeper Distributor, or write direct to the manufacturers.
